

Jonathan L Rose Photography Packages

What's Included

DIGITAL IMAGES

Each photography package includes photos of your event to view or order on our Website.

<http://www.JonathanLRosephotography.com>

ONLINE ORDERING

Within 4-6 weeks after your event, you will be able to view your images online and place your orders. We offer great prints at affordable rates. Orders may be placed online.

These options make it convenient for you, your family and friends to order reprints. This also saves you time! If you family or friends want to order reprints or enlargements, just send them to your password protected event album and let them order the images they want.

Equipment

Images by Jonathan L Rose photography has transformed services into strictly high-end professional Digital Photography. The image quality of the latest cameras exceeds the quality provided by film and allows us to change film speed in "mid-roll" and capture moments that otherwise would have been lost while changing film or camera bodies.

The entire event is shot with high-end Sony Professional Digital Cameras. Back-up equipment is standard with our business, so you do not have to worry about equipment failure.

WEBSITE
